

## Treaty Approval Is Predicted, Tests Continue

WASHINGTON, Aug. 2 (AP)—President Kennedy said Thursday that "we will continue nuclear weapons testing underground." As the nation's first ratification of a new treaty banning tests in space, in the atmosphere and under water, in the realm of the gravest domestic crisis of the day, Kennedy said he assumes that his handling of the civil rights issue has cost him political support and prestige. But he said he expects his administration to "continue to follow the same course it has followed in the past."

## China Calls Soviet Names Over Treaty

TOKYO, Aug. 2 (AP)—The Chinese called Soviet leaders "freaks and monsters" today for approving the nuclear test ban treaty, while Moscow accused Chinese Premier Chou En-lai of acting in bad faith as long as four years ago.

Albania, allied with the Soviet Union, was pitched into the war of words by accusing Premier Khrushchev of "unconditional concessions" and capitulation to the imperialists in agreeing to a "partial" nuclear test ban with the United States and Britain.

The "People's Daily," official organ of the Chinese Communist party, launched an attack against the Soviet Union and its Western partners to the test ban treaty.

"Reflects the ugly face of U.S. imperialism, which is aggressive by nature, as well as the servile features of those who are its lackeys," the paper said.

"The exposure of these freaks and monsters in their true colors is an excellent thing for the revolutionary struggle of the people."

The chief executive had a pool. (See KENNEDY, Page 2)

## Auto Plows Into Marching Soldiers

FT. DIX, N. J., Aug. 2 (UPI)—An automobile plowed into a column of marching soldiers in a wet, dimly lighted road here late last night, injuring 21 of the troops, none seriously. "There were men, rifles and helmets strewn all over the road," said Nick Grand, one of the first to reach the scene, near the post's southern boundary. Fifteen casualties were admitted to Walston

## Storm Brings Squall Line Over Midwest

By United Press International  
A destructive squall line advanced rapidly across the Midwest today, following the path of a cold front that moved from the north.

The squall conditions—an atmosphere phenomenon which can lower or raise a lake's level and sometimes cause a storm surge—followed the path of the cold front.

A squall line storm swirled out of a squall line which covered much of the Midwest. More heavy rain was coming from the squall line, which was moving from the north.

Chicago's arm turned the squall line over the road during the morning rush hour. Thirteen persons were injured when a bus

A lightning bolt knocked the "Electric" building's radio tower system out of commission.

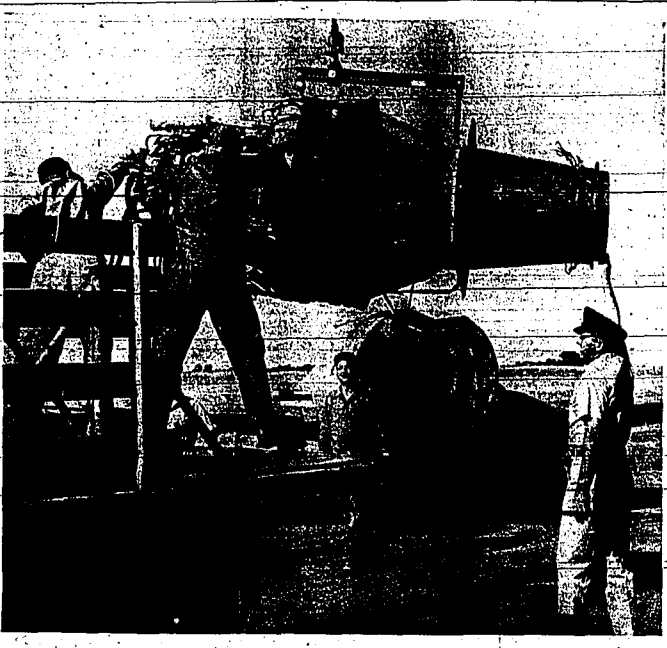

The lake level at Belmont harbor dropped three feet on the night of the storm and then went up four feet above normal.

A sharp drop in the lake level was reported at the same time.

The water level rose slightly and then dipped sharply.

Similar reports came from other parts of the Midwest.

Similar reports came from other parts of the Midwest.

LOADING JET ENGINE into a truck are members of the 8062nd air force reserve recovery squadron at Joslin field. The squadron donated the jet engine from the T-33 jet trainer in the background to the Twin Falls high school for training purposes. Leading the engine into a truck are from left, M/sgt. Dwight Shaw, S/sgt. Gordon Milne, both Twin Falls, and Capt. William E. Boatwright, right, Rupert, who is attending the engine. Walking towards them to help load is Tech Sgt. William Zimmerman, Twin Falls. Silgar's Wrecking Service crane was used to load the engine. (Times-News photo)

## Curtain Time

The curtain will rise on the production of "A Place in the Sun" tonight at 8:30 p.m. Saturday at Lincolnton field. The director is H. Paul Kille and the author is Mrs. Uarda B. King.

Tickets are available at Peterson's Western Apparel, 1510 Main Center, Beck's Shoes and the Twin Falls Chamber of Commerce office.

## T.F. High School Given Jet Engine

The Twin Falls high school was given a jet engine Thursday morning by the 8062nd air force reserve recovery squadron. It will be used during a special class this school term.

The T-33 jet airplane Thursday morning by Silgar's Wrecking Service and maintenance crews of the recovery squadron at Joslin field. The squadron donated the engine to the high school for training purposes and will give the airplane-shell to the city of Twin Falls later this summer to be mounted on a permanent concrete platform at Joslin field.

Capt. William E. Boatwright, in charge of squadron maintenance crews, said the plane was flown here this summer from Maryland. He added the engine weighs about 2,000 pounds.

Sgt. Ernest H. Haglund, Twin Falls school district, said Friday the engine will be used during a special aerospace science class to be offered for the first time this fall.

Rapland said the class will delve into the science of aviation, weather and other aspects that affect flying. He added the jet engine is an outstanding example how the air force cooperates with such special classes.

Ray Pike, high school physics teacher, will teach the class. Rapland said Pike has had special training for this type of class.

## Solons Disclose River Project

WASHINGTON, Aug. 2 (AP)—Studies of a proposed new multi-purpose project on the Snake river in southwestern Idaho were disclosed today by Sen. Frank Church and Rep. Ralph Harding, Idaho Democrats.

The structure, to be known as Twin Springs dam, would be built on the Snake fork of the Snake river, about 23 miles upstream from Arrowrock dam. It would form a 10-mile reservoir which would hold 410,000 acre feet of water, 295,000 acre feet of which would be usable storage.

Cost of the project was estimated at \$31,165,000.

Cost of the project was estimated at \$31,165,000.

## 300 Join in Achievement Day at Filer

FILER, Aug. 2—More than 300 persons participated today in the "Achievement" day at the Filer fairgrounds.

Both home economics and livestock and agricultural exhibits began at 9 a.m. Mrs. Agnes Hurd, county home demonstration agent, and Emily Bamberger, livestock home demonstration agent, evaluated the home economics exhibits. Evaluating food projects were Mrs. Helen Hurd, Mrs. Walter Egan, Mrs. Marvin Custer, Mrs. H. A. Childers and Mrs. Clinton Burt.

Charles Custer was in charge of the livestock division. The demonstrations were directed by Sue Leightner and Mrs. Howard Mills.

Girls entering the home economics division were Barbara Burkhardt, Jane Luderbach, Janet Dougherty, Mary Lynne Burkhardt, Patty Luderbach, Jeanne Burkhardt and Sandra O'Neil.

A sign contest was presented Friday afternoon following a training session for judging style.

The sign contest was under the direction of Mrs. Hurd and Miss Bamberger.

A demonstration and evaluation of horses were held in the afternoon, with Jay Cobb, Helen Caudle and Nancy Light as judges.

The car was stolen from the burning lot and driven to Heyburn where it was set after by an unidentified person who poured some type of flammable fuel on the front seat of the car and ignited it. The car was later dismantled by the license plate.

Police and detectives carry a bearded demonstrator from the entrance to New York Governor Nelson Rockefeller's office in New York Thursday. Seven demonstrators were arrested after they sought to march into the governor's office has been a demonstration for more jobs for Negroes. (AP wirephoto)

## Final Talks Held Before Moscow Trip

WASHINGTON, Aug. 2 (UPI)—President Kennedy today held a final strategy conference with Secretary of State Dean Rusk on the East-West security talks set with Russian leaders in Moscow next week. Kennedy, who appears to favor Soviet Premier Nikita Khrushchev's proposed non-aggression pact if it includes increased security guarantees for Berlin, met for almost an hour with Rusk, Disarmament Chief William C. Foster, Undersecretary of State for Arms Control and International Security, and Llewellyn Thompson, Rusk's adviser.

The President, who said he was confident the senate would approve the limited test ban treaty, declared that a non-aggression pact might also be a good idea if it contained provisions giving stronger guarantees for Berlin.

Kennedy told a news conference he thought it "advantageous" for the NATO powers to discuss Khrushchev's proposal to see (See FINAL TALKS, Page 2)

## Mishap at Bellevue Kills Jerome Man, 67

HAILEY, Aug. 2—David Lambeth, 66, Jerome, was killed about 12:30 p.m. Thursday in a one-vehicle accident on highway 93 south of Bellevue near the McManis ranch. It is believed he fell asleep while driving. Sheriff Frank Hewitt said it appeared that the 1953 Chevrolet truck with stock rack which Mr. Lambeth was operating angled off the highway, traveled in the borrow pit for about 240 feet, then crossed the road and came to a stop in the ditch on the other side of the road.

Mr. Lambeth was thrown from the truck and one of the rear wheels ran over his head, the sheriff indicated. The victim, who had been hauling hay, was traveling north.

Lawrence E. Riley, who was driving a transport truck, witnessed the accident. The sheriff's office was notified shortly after the accident.

He was born Dec. 8, 1896, in Illinois. He married Mrs. Clara M. Lambeth in 1920. (See MAN KILLED, Page 2)

## Eye Clinic Set Tuesday For Children

Magio Valley optometrist plan to participate in the Idaho optometric association annual school vision clinic Tuesday for all children planning to enter school this fall, according to Dr. Charles Hibbard, Tacoma, 10A president.

Each child must be accompanied by either a parent or a guardian and a report of the doctor will be given to each parent. The survey will be made at each individual optometrist's office during regular office hours. Children will be examined as soon as possible after arriving at the office and no appointments should be made.

The survey is not a complete visual analysis, but it will indicate whether the child is prepared visually to enter school and whether investigation of the eye condition is indicated. If further help is needed the parent will be informed and may take the child to the practitioner of his choice.

The survey is conducted about the time every year by the IOA. Accurate records are kept by the association. All registered Magio Valley optometrists are cooperating in this survey, so the child may be taken to any optometrist of the parent's choice.

Members of Future Nurses of America throughout the state will also participate in the survey. (See EYE CLINIC, Page 2)

## News Around Idaho

**IDAHO FALLS, Aug. 2 (U)—**The body of a 3-year-old boy was found Thursday in the Idaho canal here. Gary Whittier, son of Mr. and Mrs. Lee Bowler, fell into the canal after slipping off a bridge near his home earlier in the day. His 3-year-old sister reported the accident to her mother who called police. The body was reported by a city employee, officers said.

**MCALL, Aug. 2 (U)—**Vernon Dye, Sandpoint, has been elected president of the Idaho Western Wood Control association here. Wood control association here, who was named to a two-year term on the association's board of directors. Other officers elected at the annual meeting of the association were: Don C. Dye, Sandpoint, vice president; and Robert Higgins, Moscow, secretary. Lee Swanson and DeVere Torrey, both Preston, were named to one-year terms on the board.

**SALMON, Aug. 2 (U)—**Construction is expected to begin next week on a building to house four departments of agriculture offices here. The building will provide office space for the agricultural stabilization and conservation service, the farm home administration, the soil conservation service and the salmon district forest ranger.

**LEWISTON, Aug. 2 (U)—**An official of Potlatch Pulp, Inc., says that a woodworkers strike against the firm's north central Idaho and eastern Washington operations would produce nothing but economic chaos in the region. George W. Beardsmore, PFI industrial relations director, issued a statement following collapse Wednesday of general negotiations with the International Woodworkers of America, AFL-CIO.

**CHOFINO, Aug. 2 (U)—**A fire that blackened 12 acres of brush, grass and timberland near the site of Bruce Eddy dam on the north fork of the Clearwater river was reported under control early today. The fire, which burned for several hours, was contained by a protective district said the blaze was apparently touched off by a lightning bolt. The fire was reported by a resident of the town of Chofino, who said the blaze was apparently touched off by a lightning bolt. The fire was reported by a resident of the town of Chofino, who said the blaze was apparently touched off by a lightning bolt.

**BOISE, Aug. 2 (U)—**The Western company, Boise, has been named defendant in a patent infringement suit filed in district court here by the Opper Harvester company, Boise, and George N. Nelson, Fairfax, Minn. Also named as defendants in the suit, which also names Idaho, Idaho Falls, and Boise, are: Robert N. Barnes, Murray W. Burns and J. P. Monette, officials of the Western firm. The suit contends that Western has infringed on rights held by the Opper firm by manufacturing and selling harvesters embodying patented inventions of Nelson and Nelson Carl Opper.

**BOISE, Aug. 2 (U)—**The chairman of the Idaho veterans affairs commission says that executive secretary Samuel E. Vance will take over duties as commander of the Idaho Soldiers' home here today. The position was offered Vance Thursday following commission action combining the job of executive secretary with that of veterans home commander. Vance had been acting as executive secretary since he had been elected to the position. Vance had been acting as executive secretary since he had been elected to the position.

**NAPER, Aug. 2 (U)—**The body of Mrs. Priscilla Miller, 57, of Kuna, who had been missing from her home since Wednesday, was found Thursday in the Waldrop canal southeast of here. Officers said Mrs. Miller was reported missing Wednesday evening after failing to return home for work. She was found in the canal about 2 1/2 miles downstream from a spot where her shoes were found earlier in the day.

## Jerome County Fair, Rodeo Scheduled for Aug. 22-24

**JEROME, Aug. 2 (U)—**The Jerome county fair and rodeo will be held Aug. 22-24. The premium books list 11 premiums. In the community exhibits, there will be a display of the Jerome county fair and rodeo. The Jerome county fair and rodeo will be held Aug. 22-24. The premium books list 11 premiums. In the community exhibits, there will be a display of the Jerome county fair and rodeo.

**The farm products** also will be placed in the produce building and exhibits must be entered Wednesday, Aug. 21. The open class will be judged Thursday, Aug. 22. The women's department will be in the arts and crafts building. Entries will be accepted from 9:30 a.m. to 5 p.m. on Wednesday, Aug. 21. Flowers will be in the commercial exhibitors building and must be entered from 1 p.m. to 8 p.m. Wednesday, Aug. 21. Artwork, ceramics and hobbies will be housed in the arts and crafts building and must be entered from 9 a.m. to 8 p.m. Wednesday, Aug. 21. The light horses will be judged from 9 a.m. to 12 p.m. Saturday, Aug. 24. The cow cutting contest will be at 2 p.m. The youth annual Jerome rodeo show will be from 7 p.m. to 10 p.m. Saturday, Aug. 24.

**Magic Reservoir Depth Is Given**  
**BOISE, Aug. 2 (U)—**Wednesday morning Magic Reservoir contained 184,000 acre feet of water compared to 167,000 acre feet a year ago.

Cooler nights and the end of irrigating grain has decreased the demand somewhat, according to Leon Oliver, manager of the Big Wood Canal company. The Granger-Gooding canal has been drawing full capacity of 75 most 1,700 second feet per second and along in the canal has caused the canal water level to rise to a point that water had to be cut at Milner.

(Times-News photo)

**McCLAIN'S VIKINGS** are the Donut league champions of the Knothole league baseball. From left, front row, are, Dennis Morgan, Al Scherbiak, Dick Capps, Douglas Smith and Rick Semba. Back row, Ken Smith, Tom McVey, Steve McClain, Jack Robinson, Brian Olmstead and Dick Borah. They won 12 games and lost none. (Times-News photo)

# Along Fences and Canals

Harvey Gartner, Salmon tract farmer, is in the midst of his shearing.

Mr. and Mrs. Noel After helped Reuben Lierman, filer farmer, vaccinate and treat his calves for pinkeye this week.

Rightfield's natural mowers, the coyotes, have not been seen much lately, probably because of the high mustard growth along the coyote trails. However, the coyotes are around as they are heard in all areas of the tract, bordering the desert land. Prevention of mice is believed to be the reason the small flocks of sheep around Richfield are left alone by coyotes this summer. Some farmers are noting an exceptional number of dead mice floating around, apparently drowned by irrigation water. Others are not so fortunate and the mice have been eating new lawn seedlings, thus ruining the lawn setting.

A new sign has been installed on a post near the Tullio Grange hall designating the building at Tullio. The sign, painted by Mrs. Gene Padgett, Hagerman, has green lettering in fluorescent paint on a white background. It was put up by Ed Davis and son, Walter.

Farmers in the Almo area have harvested their first crop of alfalfa hay and many have their wild hay baled and stacked.

Grain is rapidly nearing the maturing stage in the Almo area and cutting will begin soon on the second hay crop. Hot weather is boosting crop growth.

Julian Payne, Nampa, is assisting with the hay harvest at the Wallace Taylor ranch near Almo.

Floyd Goss, Gooding, has spent the past week and this week in the King Hill area, combining grain. He has combined at the Hahn Heide farm, the Rodney Hubert ranch, Wesley Pink ranch and the High Buzz ranch.

Karl Koch, Hammett, is combining grain, oats and barley at the John Dapile ranch this week.

Vern Anderson, son of Mr. and Mrs. Karl Anderson, King Hill, left this week for Daniel, Wyo., where he will be employed at the George Frauts ranch during the harvest.

William Arbaugh, King Hill, threshed 55 acres of barley at W. W. Kiser ranch last week. It averaged 75 to 80 bushels to the acre.

Marlin O'Neil and Keith Darrington, Elba, purchased 18 purebred Polled Hereford cows and heifers at Omaha. The cattle arrived by truck.

George Lohmeyer, Hagerman, had a plane from Bush-dust-the aphids in his alfalfa field Tuesday evening.

Mr. and Mrs. Ralph Oluch and children are rounding up W. W. Kiser cattle in the north hills to push them to higher pasture on their dry ranch near Hill City.

Nix Finkhauser and his son, Muel, and Bud Heath and daughter, Laura, have been riding hills north of King Hill on the Lloyd Barron ranch near Hill Creek to gather cattle.

Charles Gaskill was the second Canaan farmer to start combining. His land is also near Willow Creek. Newel Brooks is expected to be the third farmer to start combining on the prairie. He will combine his land on the east end near Magic reservoir.

Mr. and Mrs. Bud Heath and family have returned from their cow camp, "Hammett-unit," near Hill City where they rounded up cattle.

Harold Hainline and Lester Deal, Bliss, have been combining milk grain at the W. W. Knox ranch and at the Eugene Cabert ranch.

Elbert Lawson has been combining barley at his ranch north of Bliss.

Ray Durr, Kimberly, is training his registered Angus cattle to show at the county fair. Durr plans to show 10 head. His grandchildren, Bonnie, Gene, and Loren Hontsdorf, are grooming their Angus, raised as 4-H projects for the fair.

William D. Simon, Fairfield, started combining his winter wheat Tuesday. He was the first to start combining on Canaan prairie and reports he is getting about 50 bushels to the acre on his land in the Willow Creek section.

## 17 Idaho Youths Named as Delegates to Co-Op Parley

BOISE, Aug. 2. — Seventeen Idaho youth delegates to the American Institute of Cooperation at Lincoln, Neb., Aug. 4-7, were announced today by Robert Wilson, Boise, secretary Idaho Cooperative council.

The delegates are: Robert F. Wilson; Doug Armistead, Southwick; Delbert Kuna; Kelly Jackson; Jerome; Lester; Stewart; Kimberly; Wayne; Pugs; Delbert; Johnson; Blackfoot; Robert; Young; Garfield; Kathleen; Keck; Parma.

Don Buehler, Payette; Ricky Norman, Davenport; Gary Dupuis, and Pat Jaworski, all Idaho; Mike; Quinnell; Twin Falls; Gary; Vest; Boise; and Rick; Oda; Rexburg.

These youths are members of 4-H clubs or Future Farmers of America. Each trip to the institute is sponsored by a cooperative organization.

Delegates will work the award for their club work, knowledge of marketing, general business and cooperatives.

The Idaho group will be accompanied by Mr. and Mrs. John Lawrence, Twin Falls.

PLANS ANNOUNCED WASHINGTON, Aug. 2. — The department of agriculture has announced plans to buy 100,000 bushels of green beans, packed in 1963, for use in the national school lunch program. It also has said it will assist California growers in marketing fresh beans.

Subscription Rate: Mail within state of Idaho and Idaho County, Nevada, 4.00; Outside Idaho, 4.50; 1 year, 15.00.

RETARDS MOLD WASHINGTON, Aug. 2. — To retard mold growth, potassium sorbate and sodium sorbate may be used in cheese and cheese products. An amendment of federal food and drug standards effective July 31.

Magic Valley's Week-End Farm Paper

ANNUAL FILER RAM sale, brochure is examined by Ray Lincoln, Idaho Wool Growers' president. The sale will get under way at 8:30 a.m. Wednesday at the Filer fairgrounds. A fine consignment of rams is scheduled to go through the ring, said Lincoln. (Times-News photo)

Seepage Loss To Be Probed By Soil Unit

SHOSHONE, Aug. 2. — During the month of August, technicians assigned to assist the soil conservation district will devote some time to seepage loss studies. Cecil Cope, area conservationist, said they are willing to work with the farmers and state the farmers to figure and estimate water loss tests.

When reliable data are determined, the county agriculture stabilization and conservation service may be contacted to determine if cost shares might be worked out.

Farmers who pump irrigation water from wells should use cost of drilling, cost of pumps and other equipment, and the annual pumping costs as a basis for figuring seepage loss estimates.

CROPS DOWN WASHINGTON, Aug. 2. — The crop reporting board said the 1963 wheat blackberry crop in Oregon and Washington would total 23,731,000 pounds, 18 per cent less than the crop harvested in 1962, and slightly below the five-year average. Oregon and Washington are the largest producers of blackberries, at Wool Growers association, will

Top Ram Consignment Is Offered for Filer Sale

FILER, Aug. 2. — The 42nd annual Filer Ram sale will get under way at 8:30 a.m. Wednesday at the Filer fairgrounds, announced Ray Lincoln, president, Idaho Wool Growers association. Top consignments from throughout Idaho will offer quality rams for the event.

At 7 p.m. Wednesday a dinner will be held at American Legion hall in Twin Falls, preceded by a friendship hour. Farrell Ward, assistant secretary, National

Rust Hits Wheat In Blaine Area

HATLEY, Aug. 2. — It is anticipated approximately 30 per cent of the wheat crop in Blaine county will be lost due to stripe rust. An average of 1 per cent of wheat and barley is believed blighted by crown rot and wheat stem maggot.

Norman Warren, Blaine county agriculture agent, is receiving phone calls from farmers reporting the presence of these blights.

The 16,000-acre crop of grain in Blaine county is now entering the soft dough stage. Warren said at Wool Growers association, will

Creep Feeding Calves . . .

Calves should be creep-fed calf manna from the time they eat grass or hay until they are sold or shown.

Calves should be started on Calf Manna at least a month before they are weaned. If they are eating at least 1/2 pound of Calf Manna daily by weaning, they will not miss the milk so much and will go up to one pound daily consumption of Calf Manna easily.

This calf will continue to grow and gain and will even do better in most cases than it did on the cow.

Weaners can be fed Calf Manna mixed with rolled grains in a mixture of one part Calf Manna with 3 parts grain. Or they can be weaned on Calf Manna alone.

## Dealer Named

Southern Idaho Equipment company has been named official dealer for "Mack Trucks" in Twin Falls, Idaho. The company operates firms in Pocatello, Idaho Falls and Boise and distributes Mack trucks through those offices. Sherriff invites Magic Valley farmers and ranchers to drop in and inspect the new models.

## Economists Are Revising Income Total

WASHINGTON, Aug. 2. — Agriculture department economists are revising their estimate of farm income from the front office. The new estimate is 10 per cent higher than the estimate of 1962 to a point where it is only about seven per cent higher than in the last year. The new estimate is 10 per cent higher than the estimate of 1962 to a point where it is only about seven per cent higher than in the last year. The new estimate is 10 per cent higher than the estimate of 1962 to a point where it is only about seven per cent higher than in the last year.

## Grasshopper Infestation Is Reported

RUPERT, Aug. 2. — A heavy grasshopper infestation, covering about 100,000 acres north and east of Kimberly and directly east of the town of Minidoka has been termed the largest in the nation, according to Warren Hamilton, assistant manager of the plant pest control division of the entomology branch of the department of agriculture located at Twin Falls.

Reasons given for the heavy infestation is the large number of grasshoppers that were reported last year to county agents. Plans and funds for spraying this year could have been provided, he said, if the pests had been reported.

Also the grasshoppers have started to move into the green crop lands from the drying wheat grass which has been their food, Hamilton said. Most farmers who have notified the pest control or their county agents, have not been able to get the grasshoppers are beginning to

Monday morning 12,000 acres were sprayed and possibly 50,000 more will be sprayed. The Twin Falls plant pest control division has already sprayed 20,000 acres and have reached the limit of their funds.

Some damage to the edge of the crop lands has been reported and Hamilton states the damage will undoubtedly be very severe before the infestation is stopped.

Entomology department personnel are not allowed to spray

## SPAKER IS LISTED

"SAN FRANCISCO, Aug. 2. — Delores Walker, called "a modern Paul Revere" for his opposition of individual liberty in opposition to bureaucracy at the national conference of the California Wool Growers association to be held here Aug. 8 and 9.

Breeds will be sold in the following order: Suffolk and Suffolk crosses, Hampshire and Suffolk crosses, and Suffolk crosses.

Now stabilized with nitrogen, makes hard soils loose and loamy, good for growing.

IF YOU WANT BETTER LAWNS AND BETTER GARDENS . . .

Use Fertilmulch . . . blends with heavy soils allowing nitrogen to reach your plants and flowers. H.O.D.s moisture and prevents overwatering to damage the roots. Adds humus to over sandy soils.

## Peace Food Exports Set New Record

WASHINGTON, Aug. 2. — The agriculture department said for peace food exports sold for foreign countries reached a record high for the second consecutive year.

An estimated export market value of 1.07 billion dollars was shipped abroad during the year ending June 30. The previous record value was 1.03 billion metric tons valued at 1.01 billion during the year which ended June 30, 1962.

The department said that if the record volume were translated into "000000" packages, it would mean that an average of more than 34 shipments of farm products were exported each day under the program.

The bulk of the shipments was commodities in most abundant supply — wheat, corn, soybeans, rice and cotton. The wheat and flour shipments for the year totaled the equivalent of more than 407 million bushels.

any crop land. They can only spray the desert area where the grasshoppers are located.

## What's New?

Insuring your liability — that's the newest wrinkle in life insurance.

You guarantee your right to buy more life insurance at specified future dates, whether or not you remain in good health.

We call it our Add-Easy Plan. That's just what it does — makes it easier for you to add to your Occidental life insurance program.

I'll be mighty happy to show you how an Occidental insurance program, including the Add-Easy feature, can best meet your particular need.

I'm just a phone call away.

JUST A FEW finishing touches to all that are needed on a new 50-ton scale being installed at the Hansen branch of the Twin Falls Flour Mills. Herb Smith, branch manager, checks the installation of the new facility. The new scale replaces one that was installed about 1905, as nearly as Smith can determine. Weighing was limited with the old scale because of its small size. (Times-News photo)

EXAMINING OLD SCALE parts are Leon Littlefield, left, and Herb Smith. The old scale at Hansen elevator was replaced with a new 50-ton scale to accommodate larger vehicles. The original scale was installed about 1905 and still is in good working condition. According to Smith, elevator manager, the new scale will be operational in a day or so. (Times-News photo)

## 50-Ton Scale Replaces Old Facility at Hansen

HANSEN, Aug. 2—Things must be getting heavier in Hansen. At any rate, the Hansen branch of the Twin Falls Flour Mills is installing a new 50-ton scale to replace an old eight by 12-foot scale.

According to Herb Smith, manager, the new scale, which will be fully installed and completed any day, will greatly improve service for farmers and ranchers in the Hansen area.

The new scale is located in approximately the same place as the old scale—on the east side of the building. The old pit was enlarged to accommodate the new facility.

As nearly as Smith can determine, the old scale was installed about 1905 and has been in continuous use. The old scale was designed primarily for wagon use and has for a number of years accommodated small trucks. However, increased payoffs and increased truck size have made the old facility obsolete.

The old scale was in good condition, said Smith. It was just too small.

The new scale is a Fairbanks-Morse, 50-ton model. It is 50 feet long by 10 feet wide. It has

## Gem Wool Crop Is Estimated

BOISE, Aug. 2—The amount of wool shorn and to be shorn in Idaho in 1963 is estimated at 10,179,000 pounds grease basis, reports the crop reporting service.

A crop of this size would be one per cent larger than the 1962 production but three per cent smaller than the 1961-62 average crop.

An estimated 1,002,000 sheep and lambs have been or will be shorn in 1963, compared to the five-year average of 1,037,000 and

last year's number at 891,000 head.

The average fleece weight is estimated at 10.2 pounds compared to 10.1 for the five-year average and 10.2 in 1962.

## Tuberculosis Testing to Start at Shoshone

SHOSHONE, Aug. 2—Testing of Lincoln county cattle for tuberculosis is scheduled to start at Shoshone, Aug. 3, with federal and state veterinarians doing the work.

Lincoln county was one of the first counties to start testing and became a modified tuberculosis accredited area Feb. 4, 1957. History shows that all Idaho counties were accredited and Idaho was also the first state west of the Mississippi to become an accredited state in 1922.

Accreditation of a county reached when all of the cattle were tested and there was less than one-half of one per cent of infection.

Re-accreditation of these Idaho counties has been brought about by releasing a percentage of the herds every three years. New regulations are in effect.

Agreed upon by the Idaho bureau of animal industry and the USDA animal disease eradication division, Counties can only be re-accredited by the following provisions, for a period of six years:

—All cattle over two years of age in each commercial dairy herd (a commercial dairy herd is one which produces milk that is marketed for human consumption in any state) must be tested.

—All registered purebred herds must be tested.

—All cattle in herds of origin (new herds) or cattle associated with those showing evidence of tuberculosis at time of slaughter must be tested.

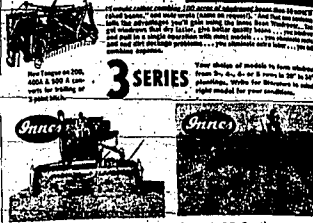

Cattle also is given to herds for cattle that are bagged under the tuberculosis market cattle test program when slaughter and no evidence of tuberculosis is found.

Cattle owners are required to submit their cattle for tuberculosis testing in accordance with U. S. FIGHTS FET.

WASHINGTON, Aug. 2 — Toughest stage of the acreworm battle is their final destination from southwest areas where they may overwinter and the prevention of reinfestation, says U. S. department of agriculture.

The pest, which has cost the southwest livestock industry as much as \$100 million a year, has been reduced in annual incidence by 50 per cent since February 1962.

## Makes Combining Beans 10 TIMES EASIER

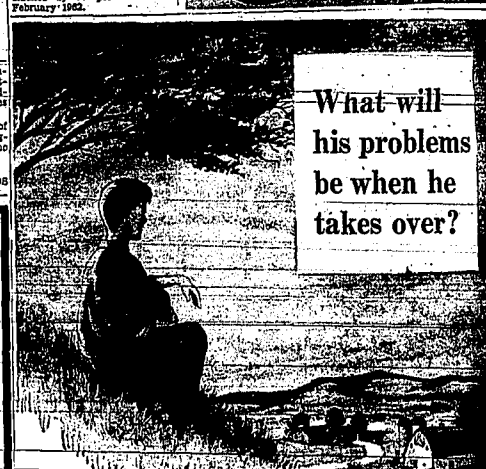

Converts 3.5 to 4.0 bushels per acre in 10 to 15 seconds. You can't beat it. It's the only combine that can do it. It's the only combine that can do it. It's the only combine that can do it.

What will his problems be when he takes over?

At the rate things seem to be changing, you might not want to guess. But what were the problems of the farmer 20 years ago . . . and what are they today? Maybe there's a clue to what they'll be when this youngster grows up.

Actually, of course, many farm problems don't change much. Twenty years from now the successful farmer will still be the one who produces efficiently and keeps his costs down . . . while he gets the most from his acres and a fair price for his produce.

Then, as now and 20 years ago, his cooperatives will help him with many of his problems . . . by providing supplies at lowest possible cost . . . by helping him improve the quality of his produce and by marketing efficiently.

Those of us who have benefited through cooperatives founded by others, should make sure they continue strong . . . to benefit our sons and daughters who will need them as much as we do.

Cooperatives are the balance wheel that strengthens our way of life.
